

Payday lender Advance America says it is going to stop targeting our military troops.

Meet their new targets.

Advance America says their customers are “hard-working Americans with middle-class incomes,” like the paramedic, gym teacher, bus driver, waitress, and shoe salesman they feature in their television ads.

Payday loans carry interest rates upwards of 400%.

Congress recently capped interest rates at **36%** on consumer loans to military families. Why can't we protect all of Virginia's working families?

**Enforce a 36% usury cap for everyone.
Vote Yes on HB 619.**
